## What's Inside

1 master prompt template (copy and paste, use as-is)

A simple before-to-after structure designed for fast retention

Product accuracy rules (matches the official product page)

Phone-shot realism with minimal editing

Caption-only guidance for clean, sell-ready UGC

## Master Prompt Template (Use As-Is)

### Concept

A vertical UGC-style video built around a quick before-and-after transformation with fast pacing.

### Before Clip

Open with a short “before” moment showing [PROBLEM / STATE] under natural, slightly flat lighting. The overall vibe is casual and unpolished.

### Transition

Use a quick jump cut to switch into the “after.”

### After Clip

Reveal [RESULT / TRANSFORMATION] with brighter, cleaner lighting and noticeably more confident body language.

## Product Accuracy

The creator features the branded product exactly as shown on the official product page: [PRODUCT LINK].

Product name, packaging, colour, and form must match the website precisely.

## Editing Rules

Minimal editing with phone-shot realism. On-screen caption text only. No extra logos. No music required.

## Platform Optimisation

Designed for TikTok, Reels, and Shorts. High retention. Authentic UGC aesthetic.

## Prompt Example - 1

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 1 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 1 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link: [PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

## Prompt Example - 2

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 2 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 2 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link: [PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

## Prompt Example - 3

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 3 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 3 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link:

[PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately. Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required. Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

#### Prompt Example - 4

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 4 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 4 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link:

[PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

#### Prompt Example - 5

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 5 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 5 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link:

[PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

#### Prompt Example - 6

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 6 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 6 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link:

[PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

#### Prompt Example - 7

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 7 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 7 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link: [PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately. Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required. Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 8

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 8 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 8 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link: [PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately. Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required. Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 9

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 9 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 9 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link: [PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately. Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required. Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 10

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 10 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 10 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link: [PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately. Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required. Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 11

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 11 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 11 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link: [PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 12

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 12 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 12 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link: [PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 13

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 13 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 13 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link: [PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 14

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 14 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 14 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link: [PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 15

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 15 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 15 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link:

[PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 16

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 16 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 16 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link:

[PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 17

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 17 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 17 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link:

[PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 18

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 18 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 18 with improved lighting

and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link: [PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately. Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required. Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 19

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 19 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 19 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link: [PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately. Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required. Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 20

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 20 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 20 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link: [PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately. Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required. Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 21

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 21 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 21 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link: [PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately. Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required. Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 22

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 22 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 22 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link:

[PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 23

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 23 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 23 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link:

[PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 24

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 24 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 24 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link:

[PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 25

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 25 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 25 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link:

[PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 26

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 26 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 26 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link:

[PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 27

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 27 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 27 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link:

[PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 28

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 28 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 28 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link:

[PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 29

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 29 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 29 with improved lighting

and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link: [PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately. Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required. Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 30

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 30 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 30 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link: [PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately. Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required. Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 31

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 31 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 31 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link: [PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately. Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required. Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 32

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 32 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 32 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link: [PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately. Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required. Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 33

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 33 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 33 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link:

[PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 34

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 34 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 34 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link:

[PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 35

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 35 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 35 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link:

[PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 36

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 36 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 36 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link:

[PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

#### Prompt Example - 43

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 43 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 43 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link: [PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately. Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required. Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

#### Prompt Example - 44

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 44 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 44 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link:

[PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 45

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 45 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 45 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link:

[PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.

### Prompt Example - 46

A vertical UGC-style video showing a fast-cut before-and-after transformation.

The video opens with a short 'before' clip showing visible problem state 46 in natural, slightly dull lighting with a casual, unpolished look.

A quick jump cut transitions to the 'after' clip showing improved, confident result state 46 with improved lighting and confident body language.

The creator naturally features the branded product exactly as listed on the official website from this link:

[PRODUCT LINK], ensuring the product name, packaging, color, and form match the website accurately.

Minimal editing, phone-shot realism, on-screen text captions only, no logos added, no music required.

Optimized for TikTok / Reels / Shorts, high retention, authentic UGC aesthetic.
